About Me

UX/UI Designer with 8+ years of experience designing websites, web applications, mobile apps, SaaS products, and WordPress-based platforms. Skilled in user research, wireframing, prototyping, design systems, and responsive UI design using Figma.

Experience

UX/UI Designer

MagniGeeks Technologies Pvt Ltd (Mar 2018 – Present)

- Led end-to-end UX/UI design for websites, portals, SaaS products, and client projects.
- Created wireframes, prototypes, and high-fidelity designs using Figma.
- Designed responsive interfaces for desktop, tablet, and mobile devices.
- Collaborated with developers for pixel-perfect implementation.
- Improved engagement and usability through redesign initiatives.

Web and Graphic Designer

Hansraj Ventures Pvt Ltd (Aug 2017 – Jan 2018)

- Working as an web designer using design tools such as **Photoshop**, and **Adobe XD** to create design interfaces. Produce various workflow diagrams, **email templates, banners, flyers, prototypes**, and **portal designs**.
- Created visually **striking banners, screens, web pages**, and **redesigned** the logo for the Hansraj Ventures website (<https://www.hansrajventures.com>), ensuring a cohesive and engaging online presence .

Freelance Web & Graphic Designer (Jan 2017 – Jun 2017)

- Created logo prototypes and processed publication-ready **advertisements for clients**, while providing ongoing website **maintenance** and **support**.
- Worked on a variety of projects, including **web banners, social media posters, visiting cards, ID cards, flyers, T-shirt designs**, and logos .
